The Parent-Child Room at Johannes Gutenberg University Mainz

Johannes Gutenberg University Mainz has set itself the task of improving the compatibility of family, research and career. Thanks to a donation from Geotechnik Büdinger Fein Welling GmbH the Parent-Child room located on the university campus was established.

Here, university employees and students of all faculties have the possibility to supervise their children flexibly and in a central location. The Parent-Child room offers an alternative solution allowing parents to work and supervise their child at the same time, e.g. when the childcare provider suddenly cancels.

The multi-functional Parent-Child room is furnished with:

- baby nursing and changing facilities
- toys
- cribs
- a small kitchen to prepare or reheat food
- computer workstations
